Keyscan Aurora Access Control Software Update Offers 130 Enhancements, Including More Integration Options

November 9, 2016, Whitby, ON. – Keyscan, Inc., a leading access and security solutions provider has enhanced its Aurora access control software with value-add new features and additional integration options.

With Version 1.0.14, now available for download, customers will benefit from 130 new features, enhancements, and changes, including:

- **Kaba E-Plex Wireless lock native integration**
Keyscan Aurora 1.0.14 natively integrates with E-Plex[®] wireless locks, providing a true hybrid access control solution using the same credentials as Keyscan access control systems.
- **Additional language support**
Keyscan Aurora is now available in four languages including French, Spanish, English, and Portuguese.
- **Web cam support**
The software now supports Microsoft[®] certified web cams that will function seamlessly with Aurora's built-in photobadging feature.
- **Support for CA150WLN access control unit**
Designed to support select third-party wireless locks, Aurora 1.0.14 gives users even more selection when fulfilling their security needs.
- **New reports and new export options**
Customers can run group access reports, among dozens of others. And, you can export cumulative hours and transactions to a CSV file for easy importation to third-party software.

These updates and the many others in Version 1.0.14 apply to Keyscan Aurora, Keyscan Aurora Client and Web Client, Aurora Communications, Aurora Agent, Database Maintenance and the Aurora SDK.

For a full list of new additions, enhancements and changes visit <http://keyscan.ca/English/PDFs/Download/AuroraEnhancements10140.pdf>.

“This new software release offers many new capabilities and enhancements to serve the changing needs our customers,” said James Duff, Product Marketing Manager at Keyscan. “To ensure that Keyscan access control systems perform optimally and provide the full suite of available features and functions, we encourage all users to update their software to this latest version.”

To upgrade your Keyscan Aurora access control system to Version 1.0.14, download the software update at <http://keyscan.ca/English/DownloadAurora.html>.
