Season's Greetings

December 2007

Keyscan Goes Wireless - Introducing the NETCOM2WH

Keyscan now offers a wireless alternative for establishing a LAN connection to the access control units. Introducing the all-new NETCOM2WH:

- o reduce wiring costs for hard to reach locations
- o ideal for applications where running network cable isn't feasible
- o supports the 802.11b/g protocols
- o comes with an enclosure and 12V power adaptor
- o equipped with wireless security

The NETCOM2WH - keeps the lines of communication open without the line.

K-VAN Proximity Reader

Keyscan introduces the K-VAN. It's the proximity reader that's ultra-resistant against vandalism. Constructed of stainless steel and Fiber-Tex®, the K-VAN is one tough reader:

- o ideal for schools, universities or high threat environments
- o suitable for indoor or outdoor use
- o HID compatible 125 KHz
- o uses proven proximity RFID technology
- o optional tamper-proof blind mounting

K-VAN – the rugged, compact, vandal-resistant - proximity reader.

K-KPR

Now Available - K-KPR Keypad / Prox Reader

Keyscan also introduces the K-KPR. Ideal for applications that require a prox credential and/or a PIN for that extra layer of security:

- o uses proven proximity RFID technology
- o HID compatible 125 KHz
- o dual verification offers higher security
- o suitable for indoor or outdoor use
- o blue backlighting and continuously illuminated 5-key for night-time visibility

The K-KPR, one more quality product from Keyscan.

System VII – version 7.0.5

Keyscan has also been busy adding new features to System VII. Version 7.0.5 can now be downloaded at keyscan.ca. Here's just a few of the improvements:

- o Now has Spanish & French context-sensitive, on -line help
- o Supports Wireless NETCOM programming
- o Now supports selection of Network Speed in NETCOM programming tool
- o Has provision to clear upload flags manually
- o Has ability to play WAV files on Access Granted in Active Mapping (optional module)

These are just some of the added features and enhancements Keyscan has made to System VII version 7.0.5.

For a limited time, receive the optional Security Command Module free with the purchase of System VII.

Don't forget you can register System VII on-line.

Holiday Hours

Keyscan would like to extend warm wishes to you and your staff for a Merry Christmas and a Happy New Year.

This is a reminder that Keyscan will be closed on the following days during the holidays:

- o Monday, December 24th – closed ½ day P.M.
- o Tuesday, December 25th – closed
- o Wednesday, December 26th – closed but with limited technical support
- o Monday, December 31st – closed ½ day P.M.
- o Tuesday, January 1st - closed

We ask that you take these dates into account for order and delivery requirements.
