## Technical Course Training Registration

# Keyscan On-the-Road Training Course

Keyscan access control hardware and renowned access control management software is sure to impress the most seasoned integrator and surpass the expectations of savvy security directors.

Keyscan technical training gives you a full hands on learning experience coupled with a full review of Keyscan Access Control Management software setup and configuration. These technical training seminars will allow you to train new access control technicians and ensure your seasoned technicians stay current with all the latest in Keyscan Access Control Systems developments with the added benefit of minimal travel!

The registration fee to attend the two day Technical Training is \$420.00 USD for the first participant from each company. Additional participants from the same company may be added to the course date at a reduced registration fee of \$250.00 USD per additional participant. Please allow 7 days for registration processing and confirmation.

### As an ADDED BONUS...

Each participating company, upon successful completion of the 2 day training session will receive a FREE COPY of the Keyscan Access Control Management Software. Over \$500 in value!

Class Training is limited to a maximum of twenty (20) participants with a course minimum of ten (10) participants required. During training days lunch will be provided by Keyscan.

Participants are also invited to join us for dinner after the Day 1 session.

All Keyscan access control hardware will be provided. A laptop is required.

All completed registration forms can be faxed or emailed to the Product Training Manager. If you have any questions regarding training please contact:
